

National Center for Immunization and Respiratory Diseases

The Advisory Committee on Immunization Practices (ACIP)

The Advisory Committee on Immunization Practices (ACIP) comprises medical and public health experts who develop recommendations on the use of vaccines in the civilian population of the United States. The recommendations stand as public health guidance for safe use of vaccines and related biological products.

ACIP'S ROLE

CDC sets the U.S. adult and childhood immunization schedules based on recommendations from ACIP.

MEETINGS

The ACIP holds three regular meetings each year, in addition to emergency sessions, at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia. The purpose is to review scientific data and vote on vaccine recommendations. Meetings are open to the public and available online via live webcast.

MEMBERSHIP

The Centers for Disease Control and Prevention (CDC) regularly solicits applications and nominations of candidates to fill upcoming vacancies on the Advisory Committee on Immunization Practices. Seats become vacant as members rotate off the committee.
